

THE ART OF SCIENCE

There is a science to aquatic housing filtration.

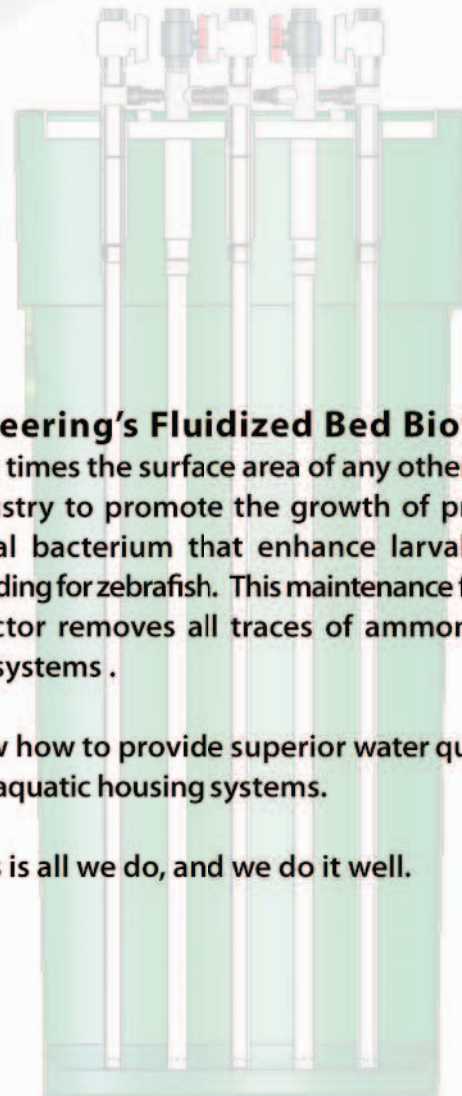

Undetectable
Ammonia
and Nitrites

Aquaneering's Fluidized Bed Biofilter offers 10 times the surface area of any other filter in the industry to promote the growth of probiotic, beneficial bacterium that enhance larval rearing and breeding for zebrafish. This maintenance free thin film reactor removes all traces of ammonia from aquatic systems .

We know how to provide superior water quality for your aquatic housing systems.

Aquatics is all we do, and we do it well.

THE SCIENCE OF FILTRATION

AQUANEERING
INCORPORATED

Because Your Research Depends On It
